

RUSSIAN CHIEF OF GERMAN ARMY

Czar's Forces Are Fighting Hard to Hold Kovno and Vilna, and Claim to Have Repulsed All Attacks.

VON HINDENBURG LEADS GERMAN ARMY AGAINST KOVNO

Kaiser's General Staff Attaches Great Importance to This Operation—Germans Driven in Riga District.

London, August 13.—Field Marshal von Hindenburg has taken personal command of the German army attacking Kovno, and, according to tonight's German official report, the Russian army has been driven back to the Riga district. The selection of Germany's main hero here for the duty of capturing Kovno, which stands between the German and Vilna and the Warsaw-Petrograd railway, indicates the importance the German general staff attaches to this operation.

KOVNO AND VILNA STOUTLY DEFENDED.

News that the civilians have been ordered to evacuate Kovno as well as Vilna has led to the belief in many quarters that the Russians either had decided to give them up or had no hope of holding these points. Now, however, it is being fought hard to retain both cities, and Petrograd claims the Russians have repulsed German attacks at a point where a desperate artillery engagement is in progress. Farther north on the Polesie and Dvinsk, where General von Busse's army was advancing rapidly toward the railway, the Germans apparently have suffered a setback, for the Russians now are reported to be declaring they have recaptured Tovin, considerably west of the point to which the Germans had penetrated. South of Riga also the Germans are said to be doing little more than holding their own, so the talked-of advance toward Petrograd seems to be developing very slowly.

On the other hand, the Germans continue to drive the Russians northeast and west of Warsaw, and with the capture of Siedlce, are within a short distance of the Bug river, one of the main supports of the Great-Litovsk line. It is believed the Germans will be originally intended to hold, but that the German offensive to the northeast may prevent.

RUSSIANS HOLD VON MACKENSEN.

Field Marshal von Mackensen, who commands the German army attacking Kovno, again is reported to have been held by a Russian counter attack and it is declared in military circles that if he is not farther than was a week ago, he certainly is not farther. The German attack on Kovno, which was the probable line on which Grand Duke Nicholas would stand, but most of them consider it hardly likely that he will try to hold the Great-Litovsk front. GERMANS DRIVEN, RUSSIANS CLAIM.

GOVERNOR NOT YET READY TO DECIDE ON EXTRA SESSION

Governor Harris has not yet come to a decision as to whether he will include prohibition in his call for an extra session, nor has he fully made up his mind just when the extra session of the general assembly will be set for.

He is considering December 1 as the probable date, the lateness of the date being due to the lack of funds in the state treasury to finance an extra session.

Many delegations have called upon the governor urging him to set a date about the middle of September, and plan have been suggested for financing a session at that date.

In this connection State Treasurer W. J. Speer, through whom the offer to finance the extra session came, said: "In justice to the prohibitionists, the legislature I desire to say that my offer to finance the extra session of the legislature without cost to the state was in no way directly or indirectly prompted by them. I am simply saying that if it is desirable to hold the session at an early date, which the present condition of the treasury seems to forbid, then I stand ready to advance \$50,000 for the purpose."

Three Times Death Trap Balked on Negro Slaver; Fourth Time It Worked

Tampa, Fla., August 13.—Three times the death trap in the galleys refused to work today when Sheriff Will Speer pulled the lever to send John Dade, negro convicted for assaulting a white woman, to the gallows. Four times he balked but on the fourth try he was adjusted about him. He met his death stoically without a word, they are fighting hard to retain both cities, and Petrograd claims the Russians have repulsed German attacks at a point where a desperate artillery engagement is in progress.

Leaders Urged to Cease Fighting and Join in Movement to Restore Order. Carranza Alone Expected to Resist.

Washington, August 13.—The Pan-American appeal to Mexicans to cease fighting and join in a movement to restore constitutional government began to go forward from the state department tonight.

First the document was dispatched in English to Mexico City to the various Latin-American legations, whose attaches will translate it into Spanish and deliver it to the military leaders in the vicinity. Tomorrow the appeal in original Spanish will be forwarded directly to Generals Villa and Carranza, governors of states and other chiefs. The text will be made public here within a few days.

With the appeal dispatches, the United States will institute a campaign of persistent effort to induce Mexican leaders who thus far have shown a disposition to oppose the movement to sacrifice their personal views in the common Mexican interest. That General Carranza will remain defiant to expectations is not regarded as probable that many of his adherents can be induced to join in a movement to restore order.

It is believed here that if a few of the Carranza generals participate it will not be long before the movement to restore order will be a reality. Carranza himself may respond favorably to the appeal after he has been informed regarding its purpose.

Carranza May Yield. No reason to expect Carranza to yield to the appeal after he has been informed regarding its purpose. Carranza may yield to the appeal after he has been informed regarding its purpose.

shown to be more important than cotton. There may be a substitute for cotton in making munitions of war. For cotton there is no known substitute. If American cotton goes through to Germany the German use of it will be limited. Therefore, cotton must not go to Germany.

"Making cotton a contraband would be a distinctly legal action, and can be internationally justified beyond question. So far as American cotton is concerned, however, the problem of disposition, therefore, cotton must not go to Germany."

"The principal difficulty would be that cotton was contraband, shipments from America, which were suspended by Germany, would be liable to confiscation by the German government. It is not necessary to consider this."

"In any case, whether cotton is contraband or not, the allies must permit neutral trading in this product. America is not a belligerent country. It is not adjacent to Germany, and its industries of those countries must have the cotton required for their own needs. How to permit this supply to move forward and yet safeguard the allies' interests by making sure that none of it will go to the enemy constitutes a complicated problem of great dimensions."

"We are interested only in keeping cotton out of Germany. We not only do not object to its going to neutral countries."

BULGARIA ASKS FOR REPARATION

Before She Joins the Allies.
Believed Serbia Will Not
Agree to Satisfy Bulgaria.
Balkan Hatreds Revived.

Rome, August 12.—(Via Paris.)—The Bulgarian minister to Italy, D. Rissov, discussing in The Tribuna the relations between the Balkan states and the quadruple entente, characterizes as unjust statements that Bulgaria considers herself indispensable to the allies and is bargaining on that basis.

Bulgaria, the minister asserts, has not changed her program. She was deceived in signing the treaty of Bucharest of 1913, under the terms of which she ceded to Rumania nearly 3,000 square miles of territory. What Bulgaria now wished, he continued, was reparation based upon the principle of nationality for which the quadruple entente is contending.

What Bulgaria Demands.
The Minister, a newspaper of Sofia, Bulgaria, July 15, published the following on the status of negotiations between Bulgaria and Great Britain, France and Russia:

"There is today no indication that an understanding can be reached."

Makes Some Interesting
Comments Regarding
Vitalitas.

Nature's most wonderful medicinal product, Vitalitas, is creating interest throughout much of the world. It differs widely from most man-made medicines in that it is wholly free of alcohol or habit-forming drugs. It is a remarkable blend of mineral properties, which, when taken together, are as probably by volcanic action. As a tonic and corrective, it produces is wonderfully effective for the general condition of stomach, liver, kidneys, bowels and blood. The following statement by Mrs. Cooper, of Chattanooga, Tenn., is of interest: "She was raised in Chattanooga, married there and then moved to Texas. She and family have now returned, but it was in Texas she got her first Vitalitas."

"For eight years I have had severe indigestion," said Mrs. Cooper. "I bought Vitalitas and after two bottles I am completely cured. Can eat anything my appetite craves. I heartily recommend it as a wonderful tonic. Make it a point to see the Vitalitas demonstration and have a sample drink free at Jacobs Pharmacy, 23 Whitehall St., or write there for information (adv.)."

GERMANS ARE LOSING IN KAMERUN COLONY

Paris, August 13.—A Havas dispatch today from a correspondent in West Africa, reports further successes by troops of the entente allies in the Kamerun colony in Western Equatorial Africa. The dispatch says: "Allied troops which had entered Garua and Ngundera in the northern Kamerun, succeeded on July 12 in occupying the important post of Tenger, in the western part of the colony on a plateau 5,350 feet high, between the mountains of Lofou and Tenger. They were repulsed after a very spirited fight in which many grenades and bombs were used."

The loss of the allies were the remainder of the front.

GERMANS WILL PROBE SHORTAGE OF MUNITIONS

Petrograd, August 13.—(Via London.) Details given the press of a secret session of the duma on August 10 show that an inquiry was initiated to determine the responsibility for the deficiency in war supplies.

The session engaged in a discussion on a committee report relating to the matter of recruiting for the coming year. During this discussion the question of defense came up and a number of members called attention to alleged irregularities in the failure to supply munitions for the army and navy.

The demand was made for an immediate cessation of irregularities and a correction of the shortage. Speakers emphasized the necessity for calling to account all persons responsible, regardless of how high their positions.

General Polivanov, the minister of war, declared that a commission would be named to make an impartial inquiry into all that had taken place to bring the army into its difficult situation. The commission would have the aid of both the members of the duma and the council of the empire, he said.

It has been informed that the council of ministers will visit the Grand Duke Nicholas at headquarters and lay before him the results of the duma's secret session.

BANK RUNNER PARDONED BY PRESIDENT WILSON

Washington, August 13.—President Wilson today granted an absolute pardon to Charles S. Lawson, a Little Rock, Ark., bank runner and acting cashier, sentenced June 5 to serve a 5 years sentence in the Atlanta penitentiary after conviction on a charge of misappropriation of the funds of a national bank.

The president was informed that Lawson made no money out of the transactions for which he was convicted and had been intrusted with too much responsibility.

Balkan barrier between the central powers and Turkey.

The present issue has renewed the enduring feud among the Balkans, and much bitterness is said to have developed in the course of the negotiations, all pointing to Serbia's refusal to yield Macedonia and to Bulgaria withholding her support from the central powers. Officials of both sides say, however, that the negotiations have not yet been abandoned, and that the dispute is being handled in the Serbian parliament, which is to meet next Monday, although personally they see little prospect of accord.

HEAVY DROPS CAUSED IN EXCHANGE RATES

Selling of Bills in London and Paris Brought About the Break.

New York, August 13.—Heavy selling of bills of exchange in London and Paris caused another break today in remittances to those centers, the rates falling to lowest quotations ever recorded since New York began to occupy a place of importance in the financial world.

Demand sterling, long the unit of all exchange, declined to 4.75, a break of 2 cents from the low price of the

previous day, and checks on Paris were quoted at 8.95, a loss of 2 cents. Exchange on Italy and Germany also was depressed, but held relatively better than other continental rates, while Russian exchange, which a few weeks ago sold at an abnormal discount, strengthened slightly.

So many conflicting elements enter into the existing exchange situation that it is difficult to assign any specific reason for the continued decline. It is clear, however, that American manufacturers of war supplies and sellers of foodstuffs are pressing claims for payment and that these are being met with depreciated foreign currency. It is believed that unless earnest steps are taken to remedy this condition, exchange rates will make further declines. At the point where American manufacturers and vendors still demand payment in American dollars.

Observers are agreed that the only sure way to relieve the existing financial tension is by establishment of further foreign credits here. Steps to this end are understood to be under way, but the amount required to adjust impending obligations is so vast as to make almost any relief measure little more than temporary.

NO PEACE CONFERENCE BY NEUTRAL CARDINALS

New York, August 13.—Cardinal Gibbons gave an emphatic denial here tonight to London dispatches saying that he and Cardinal O'Connor, of Boston, had called a meeting of neutral cardinals and bishops to be held in Switzerland to discuss peace plans.

The dispatch published in the morning papers, in which Mr. Gibbons was reported in connection with a projected peace conference, was without foundation.

London dispatches said the two cardinals had invited Roman Catholic archbishops and bishops of the various countries which it was asserted, while the neutral cardinals and bishops had received an unofficial recognition of the Vatican, which they seriously doubted if Cardinals Gibbons and O'Connor had planned any such conference.
